Mr. Kent Holdren  
Goshen Water Utility  
308 N 5<sup>th</sup> Street  
Goshen, IN 46528

Dear Mr. Holdren:

Re: PWSID 5220009  
Phase II Wellhead Protection Plan Update

This letter is to inform you that the Office of Water Quality has formally reviewed the Phase II Wellhead Protection Plan Update Survey for Goshen Water Utility. We found the submission complete, satisfying the requirements outlined in Indiana's Wellhead Protection Rule, 327 IAC 8-4.1, for a Phase II Wellhead Protection Plan Update.

If you wish to become even more involved in ground water protection in your community, consider working towards designation as a Hoosier Water Guardian. Hoosier Water Guardian is a voluntary program that recognizes utilities that go above and beyond the minimum state standards for drinking water and wellhead protection. Please see the enclosed brochure and application for more information.

Please feel free to contact us (at 317-234-7477) if you need assistance implementing any of the plan's items or if you have any questions about the comprehensive Wellhead Protection Planning Process. Your next Phase II update will be due February 16, 2022. Again, thank you for your commitment to protecting our valuable drinking water resources for future generations.

Sincerely,

James Sullivan, Chief  
Ground Water Section  
Drinking Water Branch  
Office of Water Quality
