City of Goshen, Indiana

Impacts of TIF on Local Government Budgets and Revenue

May 15, 2018

© 2014 H. J. Umbaugh and Associates, Certified Public Accountants, LLP. All rights reserved.

Property is assessed. County Auditor certifies AV's to DLGF

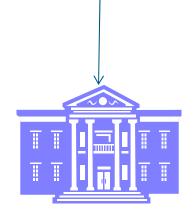

Local governments prepare and adopt budgets. Budgets are submitted to DLGF

DLGF certifies budgets, levies and property taxes to the County

Maximum Levy and "Levy-Limited" Funds

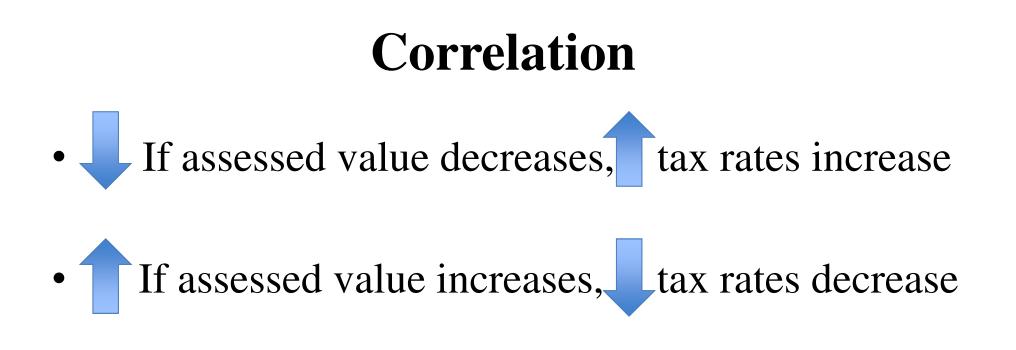

- The maximum amount of property tax dollars that may be raised (levied) in any budget year
- Certified by the DLGF
- Growth based on state-wide growth factor
 - 2016: 2.6%, 2017: 3.8%, 2018: 4%
- Max levy applies to
 - General Fund, MVH, Parks and Recreation
- Exempt levies:
 - Debt Service Fund, Cumulative Capital Funds

"Rate Driven" Funds

- Almost all cumulative funds have a maximum <u>rate</u> limitation; and a few are also outside the maximum levy limitation.
- Funds that are outside the max levy include:
 - CCD for counties and municipalities
 - Major Bridge Counties only
 - Cumulative Fire Townships only
 - Cumulative Bldg Fund Airports only
 - Equipment Replacement Fund Fire Territories only
 - School Capital Projects Fund
 - (Not any more starting in 2019)

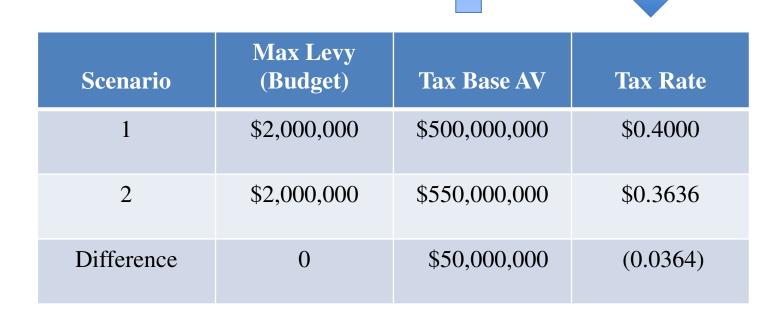

- If unit is @ Max Levy, no additional tax revenue

(except cumulative funds and circuit breaker change)

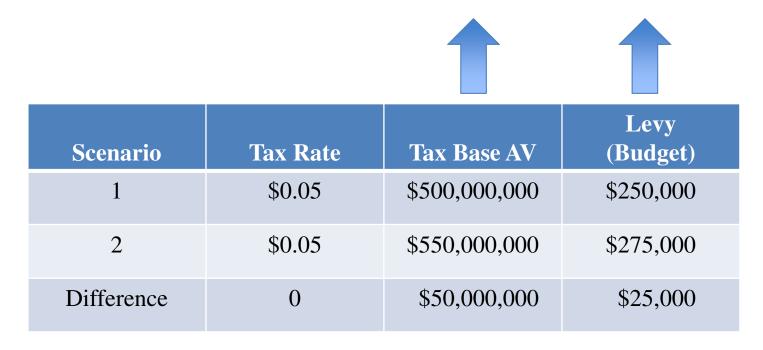

Levy-Limited Funds

Rate Limited Funds

Note: Assumes municipality is at maximum CCD rate.

Property Tax Caps – "Circuit Breaker Tax Credit"

- The computed property tax bill is compared to the "cap" amount.
 - 1% of gross assessed value (pre-deductions) for homesteads, 2% for agricultural or non-homestead residential, 3% for commercial
- The taxes above the cap amount are <u>not paid</u> by the taxpayer

- The cap amount is driven by the assessed value of the property before deductions
- The amount of unpaid taxes generates a shortfall for the taxing units
- Credits are allocated to the taxing units based upon the percentage of the unit's tax rate to the overall tax rate of the taxing district

Sample Tax Bill - Commercial

Commercial Value	\$1,000,000
Net Assessed Value (after deductions)	\$1,000,000
Tax Bill with \$4 Tax Rate	\$40,000
Tax limit @ 3%	\$30,000
Circuit Breaker Tax Credit	(\$10,000)

Sample Allocation of Circuit Breaker

Overlappin g Taxing Unit	Tax Rate	Percent of Tax Rate	Circuit Breaker
County	\$1.0000	25.00%	(\$2,500)
Township	0.0200	0.50%	(50)
City	1.4500	36.25%	(3,625)
School	1.5000	37.50%	(3,750)
Library	<u>0.0300</u>	<u>0.75%</u>	<u>(75)</u>
Total	<u>\$4.0000</u>	<u>100.00%</u>	<u>(\$10,000)</u>

10

What is TIF?

Tax increment financing (or "TIF") is an economic development tool available to cities, towns and counties - captures new assessed value and property taxes from new development in a designated area.

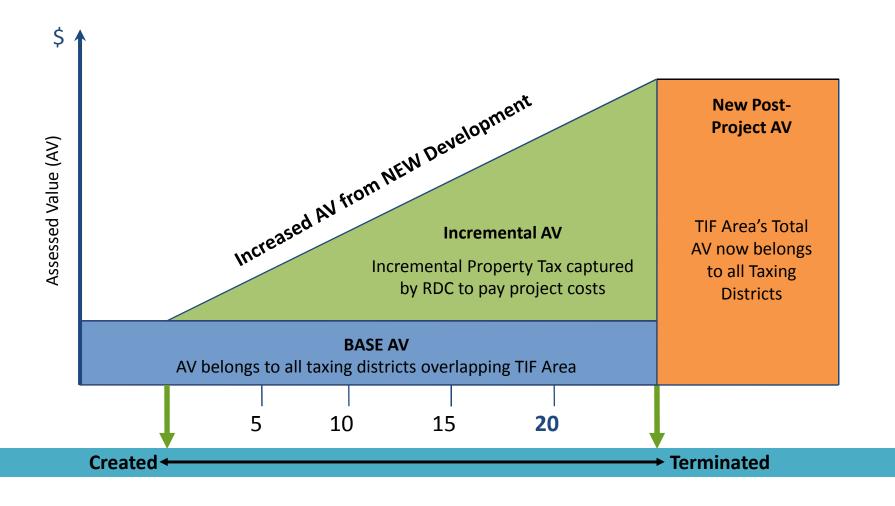

Purpose of TIF

- To finance **INCENTIVES** or **INFRASTRUCTURE** needed **to induce private investment**
- To facilitate orderly economic growth in targeted areas
- To redevelop blighted areas

Note: New businesses in a TIF Area still pay property taxes on their new private investment. The incremental taxes are captured for projects. The other taxing units <u>forgo the</u> <u>increase in assessed value during the term of the TIF Area</u>

TIF Mechanics

13

Benefits and Costs of TIF

BENEFITS

- Finances incentives and infrastructure needed to induce private investment and economic growth
- Encourages orderly economic growth in targeted areas
- Redevelops aging and deteriorating areas
- No additional tax levy
- Avoid referenda process if TIF sufficient to cover debt payments
- Extremely flexible uses; can be combined with other revenues
- *Future:* Results in growth in the property tax base
- *Immediate:* Stimulates the local economy through job creation, increased income and spending; uncaptured personal property, surplus pass-through

COSTS

• (During the term of the TIF Area, if no excess pass-through)

Other taxing units forego the increase in assessed value and forego increases in revenue on ratecontrolled funds and circuit breaker reductions; may delay tax reduction for individual taxpayers

14
